

VETERINARY HEALTH NUTRITION FORMULAS

AT-A-GLANCE

Exclusively for veterinarians and veterinary clinics

Royal Canin® Diet Name	Formulated to Nutritionally Support the Following Conditions: • Features and Benefits	Additional Benefits	Royal Canin® Dry Diet	Royal Canin® Wet Diet	Hill's® Comparable Product	Purina® Comparable Product
URINARY SO™	Calcium Oxalate and Struvite Urolithiasis • Helps dissolve pure struvite stones and helps prevent future struvite and calcium oxalate crystals and stones • Relative Super Saturation (RSS) methodology predicts the crystallization potential of urine; RSS is used to develop diets to help control both struvite and calcium oxalate urolithiasis • Increases urine volume and helps reduce the saturation of the urine with calcium oxalate and struvite • Reduced level of magnesium, a natural component of struvite stones	[S/O INDEX]	6.6 lb 17.6 lb 25.3 lb	12.5 oz 13.5 oz	s/d® c/d® Multicare	UR
		[S/O INDEX]	7.7 lb 17.6 lb	3 oz 5.1 oz	s/d® c/d® Multicare	UR
URINARY SO™ AGING 7+	Calcium Oxalate and Struvite Urolithiasis in Dogs 7 Years of Age and Older • All the features and benefits of canine URINARY SO™ • Supports vitality and cognition in dogs with an exclusive blend of nutrients & antioxidants • Formulated to help support kidney health	[S/O INDEX]	6.6 lb 17.6 lb 26.5 lb	5.2 oz		
URINARY SO™ MODERATE CALORIE	Calcium Oxalate and Struvite Urolithiasis in Cats and Dogs Prone to Weight Gain • All the features and benefits of canine and feline URINARY SO™ • Fewer calories and lower fat than canine and feline URINARY SO™	[S/O INDEX]	7.7 lb 17.6 lb	12.5 oz	c/d® Multicare + Metabolic	
		[S/O INDEX]	3.3 lb 6.6 lb 17.6 lb	3 oz	c/d® Multicare + Metabolic	
URINARY SO™ SMALL DOG	Calcium Oxalate and Struvite Urolithiasis in Small Dogs (under 22 lb) • All the features and benefits of canine URINARY SO™ • Contains nutrients to help support oral health	[S/O INDEX]	8.8 lb			
URINARY UC	Urate, Cystine and Xanthine Crystals and Stones • Low purine proteins combined with the production of alkaline urine help to reduce the risk of urate and xanthine stones • Moderate quantities of high quality proteins and controlled methionine and cystine levels help to reduce the formation of cystine stones		18 lb		u/d®	
URINARY Treats	Supports a Healthy Urinary Tract • Veterinary-exclusive urinary treat • Low RSS for struvite and calcium oxalate	[S/O INDEX]	17.6 oz			
		[S/O INDEX]	7.7 oz			
URINARY SO™ + HYDROLYZED PROTEIN MULTI FUNCTION	Calcium Oxalate and Struvite Urolithiasis + Adverse Food Reactions • Helps dissolve pure struvite stones and helps prevent future struvite and calcium oxalate crystals and stones • Relative Super Saturation (RSS) methodology predicts the crystallization potential of urine • Hydrolyzed protein, composed of low molecular weight peptides, is highly digestible and helps manage clinical signs associated with food sensitivities • Single starch source: rice • Formulated to support the skin's natural protective barrier for optimal skin health	[S/O INDEX]	7.7 lb 17.6 lb			
		[S/O INDEX]	12 oz 6.6 lb 17.6 lb			
URINARY SO™ + SATIETY™ MULTI FUNCTION	Calcium Oxalate and Struvite Urolithiasis + Excess Weight and Obesity in Adult Cats and Dogs • Helps dissolve pure struvite stones and helps prevent future struvite and calcium oxalate crystals and stones • Relative Super Saturation (RSS) methodology predicts the crystallization potential of urine • A special blend of fibers helps promote satiety and reduce the spontaneous consumption of food • High protein content helps maintain lean body mass during weight loss	[S/O INDEX]	7.7 lb 17.6 lb	13.5 oz	c/d® Multicare + Metabolic	
		[S/O INDEX]	12 oz 6.6 lb 17.6 lb		c/d® Multicare + Metabolic Feline	
URINARY SO™ + CALM MULTI FUNCTION	Calcium Oxalate and Struvite Urolithiasis + Stress or Anxiety-Related Conditions • Helps dissolve pure struvite stones and helps prevent future struvite and calcium oxalate crystals and stones • Relative Super Saturation (RSS) methodology predicts the crystallization potential of urine • This diet contains nutrients including hydrolyzed milk protein and L-tryptophan, shown to have a calming effect on cats • Specific nutrient blend helps manage digestive problems such as diarrhea, constipation and hairballs	[S/O INDEX]	12 oz 6.6 lb 17.6 lb	3 oz	c/d® Stress Feline	
URINARY SO™ AGING 7+ + CALM MULTI FUNCTION	Calcium Oxalate and Struvite Urolithiasis in Cats 7 Years of Age and Older • Helps dissolve pure struvite stones and helps prevent future struvite and calcium oxalate crystals and stones • Relative Super Saturation (RSS) methodology predicts the crystallization potential of urine • This diet contains nutrients including hydrolyzed milk protein and L-tryptophan, shown to have a calming effect on cats • Supports vitality and cognition in cats with an exclusive blend of nutrients & antioxidants. Formulated to help support kidney health.	[S/O INDEX]	6.6 lb 17.6 lb	5.1 oz		
		[S/O INDEX]		5.1 oz		c/d® Multicare Stress + Metabolic (dry)
URINARY SO™ + SATIETY™ + CALM MULTI FUNCTION	Calcium Oxalate and Struvite Urolithiasis + Excess Weight and Obesity + Stress or Anxiety-Related Conditions • Helps dissolve pure struvite stones and helps prevent future struvite and calcium oxalate crystals and stones • Relative Super Saturation (RSS) methodology predicts the crystallization potential of urine • Formulated to support safe weight loss, control begging and help limit weight regain • High protein content helps maintain lean body mass during weight loss • This diet contains nutrients including hydrolyzed milk protein and tryptophan, shown to have a calming effect on cats	[S/O INDEX]		5.1 oz		

Royal Canin® Diet Name	Formulated to Nutritionally Support the Following Conditions: • Features and Benefits	Additional Benefits	Royal Canin® Dry Diet	Royal Canin® Wet Diet	Hill's® Comparable Product	Purina® Comparable Product
ULTAMINO	Dietary Elimination Trial and Adverse Food Reactions with Dermatological and/or Gastrointestinal Signs • Extensively hydrolyzed protein composed of oligopeptides and pure amino acids from a single source helps to reduce the risk of developing signs of food sensitivities • Formulated to support the skin's natural protective barrier for optimal skin health • A synergistic complex of antioxidants to support cellular health		8.8 lb 19.8 lb			
		[S/O INDEX]	5.5 lb			
HYDROLYZED PROTEIN HP	Dietary Elimination Trial and Adverse Food Reactions with Dermatological and/or Gastrointestinal Signs • Hydrolyzed soy protein, composed of low molecular weight peptides, is highly digestible and supports gastrointestinal and dermatological health • Single starch source • Formulated to support the skin's natural protective barrier. Enriched with EPA+DHA fatty acids to help maintain healthy skin & digestion.		7.7 lb 17.6 lb 25.3 lb	13.7 oz		z/d® HA
		[S/O INDEX]	12 oz 7.7 lb 17.6 lb			z/d® HA
HYDROLYZED PROTEIN PUPPY	Dietary Elimination Trial and Adverse Food Reactions with Dermatological and/or Gastrointestinal Signs • Hydrolyzed soy protein, composed of low molecular weight peptides, is highly digestible and supports gastrointestinal and dermatological health • Single starch source: rice • Formulated to support the skin's natural protective barrier. Enriched with EPA+DHA fatty acids to help maintain healthy skin & digestion. • Highly palatable formula with specially adapted levels of nutrients to meet the nutritional needs of growing puppies and support their immunity • For puppies from 6 months and adult weight greater than 8.8 lb (4 kg)		8.8 lb 22 lb			HA
HYDROLYZED PROTEIN PS	Dietary Elimination Trial and Adverse Food Reactions with Dermatological and/or Gastrointestinal Signs • Single starch source: potato		8.8 lb 24.2 lb			
HYDROLYZED PROTEIN MODERATE CALORIE	Dietary Elimination Trial and Adverse Food Reactions with Dermatological and/or Gastrointestinal Signs in Dogs Prone to Weight Gain • Reduced energy levels		7.7 lb 24.2 lb			
HYDROLYZED PROTEIN SMALL DOG	Dietary Elimination Trial and Adverse Food Reactions with Dermatological and/or Gastrointestinal Signs in Small Dogs (up to 22 lb) • This formula helps support healthy teeth with kibbles that promote a brushing effect while chewing	[S/O INDEX]	8.8 lb			z/d® Small Bites
HYDROLYZED PROTEIN Treats	Supports the Health of Cats and Dogs with Food Sensitivities • Single hydrolyzed protein and single carbohydrate source • Supports a healthy skin barrier • Nutrients to help support digestive health	[S/O INDEX]	17.6 oz		Hypo-Treats	Gentle Snackers
		[S/O INDEX]	7.7 oz		Hypo-Treats	
VEGETARIAN	Dietary Elimination Trials, Adverse Food Reactions and Prevention of Urate Urolithiasis • Proteins exclusively from vegetable origin • May be used for urate urolithiasis		17.6 lb	13.5 oz		
SELECTED PROTEIN • PD dry (duck) • PR dry (rabbit) • PV dry (venison) • PW dry (whitefish)	Dietary Elimination Trial and Adverse Food Reactions with Dermatological and/or Gastrointestinal Signs • Protein source: duck, rabbit, venison or whitefish • Additional protein source: hydrolyzed soy • Single starch source Canine: potato Feline: pea • Formulated to support the skin's natural protective barrier for optimal skin health		7.7 lb 17.6 lb 25 lb 30.8 lb**			d/d®
			8.8 lb 17.6 lb*			d/d®
SELECTED PROTEIN • PD wet (duck) • PR wet (rabbit)	Dietary Elimination Trial and Adverse Food Reactions with Dermatological and/or Gastrointestinal Signs • Protein source: duck or rabbit • Single starch source Canine: potato Feline: pea • Formulated to support the skin's natural protective barrier for optimal skin health			13.5 oz		d/d®
				5.1 oz		d/d®
SELECTED PROTEIN PW MODERATE CALORIE	Dietary Elimination Trial and Adverse Food Reactions with Dermatological and/or Gastrointestinal Signs in Dogs Prone to Weight Gain • All the features and benefits of SELECTED PROTEIN formulas • Single protein source: whitefish; single starch source: potato • Moderate calorie content to help maintain ideal weight		7.7 lb 24.2 lb			
SELECTED PROTEIN ADULT PW LARGE DOG	Dietary Elimination Trial and Adverse Food Reactions with Dermatological and/or Gastrointestinal Signs in Large Breed Dogs (over 55 lb) • All the features and benefits of SELECTED PROTEIN formulas • Single protein source: whitefish; single starch source: potato • Glucosamine, chondroitin and essential fatty acids to support joint health		26.4 lb			

Royal Canin® Diet Name	Formulated to Nutritionally Support the Following Conditions: • Features and Benefits	Additional Benefits	Royal Canin® Dry Diet	Royal Canin® Wet Diet	Hill's® Comparable Product	Purina® Comparable Product
DERMATOLOGY SKINTOPIC™	Atopic Dermatitis (Atopy) • Supplemented with a unique blend of nutrients and antioxidants, including optimal amounts of omega-3 fatty acids to promote skin health and improve quality of life by managing itchiness • Optimal amounts of B vitamins and amino acids to help maintain the skin's natural barrier effect	[S/O] INDEX	13.5 oz	13.5 oz	Derm Complete	DRM
SKINTOPIC™ MEDIUM/LARGE DOG	Atopic Dermatitis (Atopy) in Medium/Large Dogs (over 22 lb) • Supplemented with a unique blend of nutrients and antioxidants, including optimal amounts of omega-3 fatty acids to promote skin health and improve quality of life by managing itchiness • Optimal amounts of B vitamins and amino acids to help maintain the skin's natural barrier effect		7.7 lb 17.6 lb 30.8 lb		Derm Complete	DRM
SKINTOPIC™ SMALL DOG	Atopic Dermatitis (Atopy) in Small Dogs (up to 22 lb) • Supplemented with a unique blend of nutrients and antioxidants, including optimal amounts of omega-3 fatty acids to promote skin health and improve quality of life by managing itchiness • Optimal amounts of B vitamins and amino acids to help maintain the skin's natural barrier effect • Kibble shape and texture adapted for jaw of small dog and contains nutrients to support oral health	[S/O] INDEX	8.8 lb		Derm Complete	DRM
WEIGHT MANAGEMENT SATIETY™ SUPPORT	Excess Weight and Obesity in Adult Cats and Dogs • High protein content helps support healthy weight loss while maintaining muscle mass • Helps provide safe weight loss and avoid weight regain • Nutritional approach that helps keep cats and dogs satisfied between meals • 97% of cats and dogs lost weight in 3 months using this nutritional approach	[S/O] INDEX	7.7 lb 17.6 lb 26.4 lb	13.4 oz	Metabolic	OM
		[S/O] INDEX	12 oz 7.7 lb 18.7 lb	3 oz 5.1 oz	Metabolic	OM
SATIETY™ SUPPORT SMALL DOG	Excess Weight and Obesity in Small Dogs (up to 22 lb) • Provides safe weight loss and helps avoid weight regain • High natural fiber level keeps dogs satisfied between meals • Adapted formula to meet the specific digestive, dental and urinary sensitivities of small dogs • 97% of dogs lost weight in 3 months using this nutritional approach	[S/O] INDEX	1.5 lb 6.6 lb			
SATIETY™ Treats	Low in Calories to Support a Healthy Weight • Low calorie	[S/O] INDEX	17.6 oz		Metabolic Treats	Lite Snackers™
		[S/O] INDEX	7.7 oz		Metabolic Treats	Crunchy Bites
GLYCOBALANCE	Diabetes Mellitus • Formulated to help support healthy postprandial blood glucose levels • High protein content to help maintain muscle mass in diabetic cats and dogs	[S/O] INDEX	7.7 lb 17.6 lb	13.4 oz	w/d®	EN Fiber Balance
		[S/O] INDEX	4.4 lb 3 oz	3 oz	m/d® w/d®	DM
SATIETY™ + HYDROLYZED PROTEIN MULTIFUNCTION	Excess Weight and Obesity in Adult Dogs with Adverse Food Reactions • Provides safe weight loss and helps avoid weight regain. 97% of dogs lost weight in 3 months using this nutritional approach. • Hydrolyzed soy protein, composed of low molecular weight peptides, is highly digestible and supports gastrointestinal and dermatological health • High natural fiber level keeps dogs satisfied between meals • Specially formulated complex of nutrients to support the barrier effect of the skin		6.6 lb 15.4 lb 24.2 lb			
GASTROINTESTINAL	Fiber-Responsive Gastrointestinal Disease • A combination of highly digestible proteins, prebiotics and EPA and DHA helps support digestive health • An optimal blend of insoluble and soluble fibers helps maintain intestinal health		8.8 lb 17.6 lb		w/d® Gastro-intestinal Biome®	EN Fiber Balance
		[S/O] INDEX	8.8 lb		w/d® Gastro-intestinal Biome®	OM
			8.8 lb 22 lb	13.5 oz	i/d®	EN
	Acute and Chronic Gastroenteritis in Ideal Weight or Underweight Cats and Dogs • A combination of highly digestible proteins, prebiotics and EPA and DHA helps support digestive health • Adapted energy content to reduce meal volume and decrease intestinal load • High palatability to satisfy decreased appetites	[S/O] INDEX	8.8 lb	5.1 oz	i/d®	EN

Royal Canin® Diet Name	Formulated to Nutritionally Support the Following Conditions: • Features and Benefits	Additional Benefits	Royal Canin® Dry Diet	Royal Canin® Wet Diet	Hill's® Comparable Product	Purina® Comparable Product
GASTROINTESTINAL MODERATE CALORIE	Acute and Chronic Gastroenteritis in Dogs and Cats Prone to Obesity • A combination of highly digestible proteins, prebiotics and EPA and DHA helps support digestive health • A reduced calorie content helps support a healthy body condition in spayed/neutered cats and dogs or those with a tendency to be or become overweight		22 lb			
		[S/O] INDEX	7.7 lb	3 oz		
GASTROINTESTINAL PUPPY	Acute and Chronic Gastroenteritis in Puppies • A combination of highly digestible proteins, prebiotics and EPA and DHA helps support digestive health • Formulated to fulfill the nutritional needs of growing puppies • A high energy content allows for a reduction in meal volume and a decreased intestinal load • Kibbles easily rehydrate with warm water to help facilitate food intake and ease the transition from milk to solid food • Adapted mousse-texture in the wet formula to help facilitate food intake in puppies with poor appetites	GROWTH	8.8 lb 22 lb	5.1 oz	i/d®	EN
GASTROINTESTINAL KITTEN	Acute and Chronic Gastroenteritis in Kittens • A combination of highly digestible proteins, prebiotics and EPA and DHA helps support digestive health • Formulated to fulfill the nutritional needs of growing kittens • A high energy content allows for a reduction in meal volume and a decreased intestinal load • Kibbles easily rehydrate with warm water to help facilitate food intake and ease the transition from milk to solid food • Adapted mousse-texture in the wet formula to help facilitate food intake in kittens with poor appetites	GROWTH	12 oz 4.4 lb 7.7 lb	5.1 oz	i/d®	EN
GASTROINTESTINAL LOW FAT	Pancreatitis, Exocrine Pancreatic Insufficiency, Lymphangiectasia and Hyperlipidemia • A combination of highly digestible proteins, prebiotics and EPA and DHA helps support digestive health • A low fat concentration, while providing a maintenance energy level for dogs needing a fat-restricted diet • Pork used as primary protein source in the canned formula	[S/O] INDEX	1.5 lb 6.6 lb 17.6 lb 26.4 lb** 28.6 lb	13.6 oz	i/d® Low Fat	EN Low Fat™
		[S/O] INDEX	Home Care Kit (1.5 lb dry + 3/13.6 oz cans)		i/d® Low Fat	EN Low Fat™
GASTROINTESTINAL Treats	Specific Nutrients to Support Digestive Health • Highly digestible		17.6 oz			
		[S/O] INDEX	7.7 oz			
HEPATIC	Hepatic Encephalopathy and Copper Metabolism Disorders • Low level of copper to help minimize its accumulation in liver cells • Adapted energy content to reduce meal volume and decrease intestinal load		7.7 lb 26.4 lb	14.4 oz	U/d®	
RECOVERY™	Critical Illness and Postsurgical Care • High energy density that provides daily energy requirements in a reduced feeding volume • Specific texture that facilitates feeding through feeding tubes >=12 Fr • High protein level to help maintain muscle mass during hospitalization and convalescence	GROWTH		5.1 oz	a/d®	CN
		GROWTH		5.1 oz	a/d®	CN
RECOVERY™ LIQUID	Critical Illness and Tube Feeding • High protein level to help maintain muscle mass during hospitalization and convalescence • High energy density that provides daily energy requirements in a reduced feeding volume • Complete and balanced liquid diet to support nutritional restoration and convalescence of cats and dogs requiring assisted feeding • 0.9 kcal/mL. After opening, keep refrigerated and use within 48 hours.	EASY TUBE FEEDING		8 fl oz		
				8 fl oz		
GASTROINTESTINAL LOW FAT LIQUID	Critical Illness and Tube Feeding • Formulated with low fat levels to help support dogs requiring fat restriction • High energy density that provides daily energy requirements in reduced feeding volume • Complete and balanced liquid diet to support nutritional restoration and convalescence of dogs requiring assisted feeding • 0.9 kcal/mL. After opening, keep refrigerated and use within 48 hours.	EASY TUBE FEEDING		8 fl oz

Royal Canin® Diet Name	Formulated to Nutritionally Support the Following Conditions: • Features and Benefits	Additional Benefits	Royal Canin® Dry Diet	Royal Canin® Wet Diet	Hill's® Comparable Product	Purina® Comparable Product
 EARLY CARDIAC	Heart Disease • Formulated with nutrients, such as taurine and L-carnitine, which contribute to maintaining the health of the cardiac muscle • EPA + DHA help support cardiovascular function • Moderate sodium to help reduce the workload on the heart		 7.7 lb 17.6 lb		h/d®	
RENAL SUPPORT EARLY CONSULT	IRIS Stage 1 Chronic Kidney Disease • Formulated with moderate phosphorus and EPA + DHA to support kidneys and renal function at an early stage • Enriched with a blend of antioxidants to help promote tissue and cellular health • A combination of highly digestible proteins help to support digestive health • Designed with nutrients to help support cats and dogs with early signs of aging		 5.5 lb 17.6 lb	 5.2 oz		
			 12 oz 4.4 lb 8.8 lb	 3 oz	k/d® Early Support (cats only)	NF Early Care (cats only)
RENAL SUPPORT A (AROMATIC) F (FLAVORFUL) S (SAVORY)	IRIS Stages 2-4 Chronic Kidney Disease • Formulated with low phosphorus and restricted amounts of high quality protein • Adapted energy content to reduce meal volume and help compensate for a decreased appetite • A specific aromatic profile with a dedicated kibble shape to help stimulate the cat or dog's appetite, particularly in cases prone to food aversion		 6 lb 17.6 lb		k/d®	NF
			 12 oz 3 lb 6.6 lb		k/d®	NF Advanced Care
RENAL SUPPORT D (DELECTABLE) E (ENTICING) T (TASTY)	IRIS Stages 2-4 Chronic Kidney Disease • Formulated with low phosphorus and restricted amounts of high quality protein • Adapted energy content to reduce meal volume and help compensate for a decreased appetite • A specific aromatic profile with a dedicated texture to help stimulate the cat or dog's appetite, particularly in cases prone to food aversion			 13 oz 13.5 oz	k/d®	NF
				 3 oz 5.1 oz	k/d®	NF Advanced Care
ADVANCED MOBILITY SUPPORT	Osteoarthritis and Degenerative Joint Disease • In a clinical study, 88% of dogs showed an improvement in mobility using this nutritional approach • Formulated with select nutrients, including collagen, to help protect joint cartilage health • Adapted calorie content to support joint health by maintaining an ideal body weight		 8.8 lb 26.4 lb	 13.5 oz	j/d®	JM
RENAL SUPPORT LIQUID	All Stages of Chronic Kidney Disease, Critical Illness and Tube Feeding • Formulated with low phosphorus and restricted amounts of high quality protein • High energy density that provides daily energy requirements in a reduced feeding volume • Antioxidant complex helps manage oxidative stress • 0.9 kcal/mL (feline), 1.3 kcal/mL (canine). After opening, keep refrigerated and use within 48 hours.			 8 fl oz		
				 8 fl oz		
RENAL SUPPORT + HYDROLYZED PROTEIN MULTI FUNCTION	Chronic Kidney Disease + Adverse Food Reactions • Formulated with low phosphorus and restricted amounts of high quality protein • Adapted energy content to reduce meal volume and help compensate for a decreased appetite • Hydrolyzed soy protein, composed of low molecular weight peptides, is highly digestible and supports gastrointestinal and dermatological health • Formulated to support the skin's natural protective barrier for optimal skin health		 7.7 lb 17.6 lb			
			 6.6 lb			
RENAL SUPPORT + ADVANCED MOBILITY SUPPORT MULTI FUNCTION	Chronic Kidney Disease with Concurrent Joint Conditions • Formulated with low phosphorus and restricted amounts of high quality protein • Adapted energy content to reduce meal volume and help compensate for a decreased appetite • In a clinical study, 88% of dogs showed an improvement in mobility using this nutritional approach • Formulated with select nutrients, including collagen, to help protect joint cartilage health		 7.7 lb 17.6 lb	 13.1 oz	k/d® + Mobility	
ADVANCED MOBILITY SUPPORT + SATIETY MULTI FUNCTION	Overweight and Obese Dogs with Concurrent Joint Conditions • In a clinical study, 88% of dogs showed an improvement in mobility using this nutritional approach • 97% of dogs lost weight in 3 months using this nutritional approach • Nutritional approach that helps control begging in 83% of dogs during weight loss		 7.7 lb 17.6 lb 26.4 lb		Metabolic + Mobility	

*Applies to Canine RENAL SUPPORT D only. **Applies to Canine RENAL SUPPORT E and T only. †Applies to Feline RENAL SUPPORT E only. Hill's Pet Nutrition, Inc. ©/™ Trademarks owned by Hill's Pet Nutrition, Inc. Purina owned by Société des Produits Nestlé S.A., Vevey, Switzerland.

For veterinary use only.

Royal Canin® Diet Name	Formulated to Nutritionally Support the Following Conditions: • Features and Benefits	Additional Benefits	Royal Canin® Dry Diet	Royal Canin® Wet Diet	Hill's® Comparable Product	Purina® Comparable Product
 CALM	Healthy Cats and Small Dogs (dogs under 33 lb) Facing Stressful Environments or Situations • Hydrolyzed milk protein and L-tryptophan to promote calming of fearful behaviors in stressful environments • Highly digestible formula with balanced fibers including prebiotics to support healthy digestion, and helps cats eliminate ingested hair through their stool • Formulated to support the skin's natural protective barrier for optimal skin health		 4.4 lb 8.8 lb			
			 4.4 lb 8.8 lb			
DENTAL SMALL DOG	Helps Reduce the Formation of Plaque and Calculus in Healthy Small Breed Adult Dogs (up to 22 lb) • Specific kibble shape and size for brushing effect to help reduce plaque and tartar • Calcium and phosphorus to support healthy teeth • Promotes a diluted urine, which helps reduce the risk of crystal formation • A specific blend of fibers to support digestive health		 8.8 lb		t/d® Small Bites	DH Small Bites
DENTAL MEDIUM-LARGE DOG	Helps Reduce the Formation of Plaque and Calculus in Healthy Adult Dogs (over 22 lb) • Specific kibble shape and size for brushing effect to help reduce plaque and tartar • Calcium and phosphorus to support healthy teeth • A specific blend of fibers to support digestive health		 7.7 lb 17.6 lb		t/d®	DH
DENTAL FELINE	Helps Reduce the Formation of Plaque and Calculus in Healthy Adult Cats • Specific kibble shape and size for brushing effect to help reduce plaque and tartar • Calcium and phosphorus to support healthy teeth • A specific blend of fibers to support digestive health • A blend of antioxidants to help maintain a healthy immune system and to reduce DNA damage associated with cell aging • Omega-3 fatty acids, EPA and DHA, to help modulate inflammatory reactions		 1.3 lb 7.7 lb		t/d®	DH
						
WEIGHT CONTROL FELINE / MEDIUM DOG	Maintenance of an Ideal Weight in Healthy Adult Cats and Dogs (dogs 23-55 lb) with a Tendency to Gain Weight • A special blend of fibers to help regulate appetite • Precise fat and calorie content with L-carnitine • Adapted levels of highly digestible protein to help maintain muscle mass • Omega-3 fatty acids, EPA and DHA, to help modulate inflammatory reactions • A blend of antioxidants to help maintain a healthy immune system and to reduce DNA damage associated with cell aging		 17.6 lb	 13.5 oz		
			 3.3 lb 7.7 lb 17.6 lb	 5.1 oz		
WEIGHT CONTROL LARGE DOG	Maintenance of an Ideal Weight in Healthy Large Breed Dogs (over 55 lb) with a Tendency to Gain Weight • Ring-shaped kibble to facilitate slower ingestion • A special blend of fibers to help regulate appetite by promoting a feeling of fullness • Adapted formula, including L-carnitine, and energy levels to help dogs maintain an ideal weight • Omega-3 fatty acids, including EPA and DHA, to help maintain healthy bones and joints • A highly digestible formula with prebiotics to support healthy digestion • Contains a blend of antioxidants to help maintain a healthy immune system and reduce DNA damage associated with cell aging		 24.2 lb			
MATURE CONSULT MEDIUM DOG	Supports Unique Nutritional Needs of Healthy Aging Medium Breed Dogs (over 5-8 years old, 23-55 lb) • Targeted phosphorus, EPA, DHA, L-carnitine and L-tryptophan to support aging dogs • Balanced amino acids to support muscle mass • Nutrients that support hair growth and shine • Nutrient blend that helps regulate intestinal transit and supports the intestinal microflora		 8.8 lb 19.8 lb	 13.5 oz		
MATURE CONSULT LARGE DOG	Supports Unique Nutritional Needs of Healthy Aging Large Breed Dogs (over 5-8 years old, over 55 lb) • Targeted phosphorus, EPA, DHA and L-carnitine to support aging dogs • Balanced amino acids to support muscle mass • Formulated to help maintain healthy bones and joints • Enriched with L-tryptophan to support brain health • Nutrient blend that helps regulate intestinal transit and supports the intestinal microflora		 28.6 lb			
PILL ASSIST™ SMALL DOG	Help your Small Dog (up to 22 lb) Patients with Pill Administration • Highly attractive formula and easy to mold and shape around pills • Shown to enable pill acceptance in 98% of cases • Adapted energy content with 10 kcal per piece		 3.1 oz			
PILL ASSIST™ MEDIUM-LARGE DOG	Help your Medium-Large Dog (over 22 lb) Patients with Pill Administration • Highly attractive formula and easy to mold and shape around pills • Shown to enable pill acceptance in 97% of cases • Adapted energy content with 25 kcal per piece		 7.9 oz			
PILL ASSIST™ FELINE	Help your Feline Patients with Pill Administration • Highly attractive formula and easy to mold and shape around pills • Shown to enable pill acceptance in 91% of cases • Adapted energy content with 3 kcal per piece		 1.58 oz
